

## Important Information

Please consider your request to transfer carefully. Students considering a course transfer can utilise **course guidance information** prior to applying to transfer.

Students who wish to transfer must first meet **all Eligibility Criteria** as listed on the Course Transfer website before being assessed against **Entry Requirements**.

If your course transfer application is successful, you may be placed into the current curriculum listed in the 2026 Handbook. However, if you are transferring from a double degree to one of its constituent single degrees, you will typically be placed in the curriculum from your original admission year (not applicable to international student visa holder), unless the University determines otherwise. You will receive a new WAM, calculated only from units completed in the new course. Your academic standing from your previous course will be applied to your new degree.

### Transfers to double degrees

Course transfer applications into a double degree will only be considered for the double degree available in the Handbook.

Students **must** meet transfer requirements for **any component of the double degree** that they are not currently admitted to. For example, a student admitted to a Bachelor of Applied Finance seeking transfer to a Bachelor of Economics with Bachelor of Applied Finance will only need to meet the requirement of the Bachelor of Economics. However, a student admitted to a Bachelor of Arts seeking transfer to Bachelor of Economics with Bachelor of Applied Finance must meet the transfer requirement for **both** Bachelor of Economics **and** Bachelor of Applied Finance.
