2. AGENDA ITEMS FOR DISCUSSION

2.1 DISABILITY STUDENTS

Bradley Lewer spoke to his submitted paper and provided background to his claims against the University in relation to the treatment of disabled students. He advised the Board that this issue in relation to decision making around disabled students was a matter being investigated by the Macquarie University Grievance Committee, NSW Ombudsman and Anti-Discrimination Board and claimed that he has attempted to follow the University’s complaint processes.

The following claims were detailed:

1. That there have been inoperative computers or computers in need of repair in the library for months.
2. Desire for a dedicated space, noting that Newcastle University has a dedicated space for disabled students.
3. That disabled students have had specific access to spaces reduced.
4. That Macquarie University has breached the NSW Anti-Discrimination Act.

The Chair provided information that had been provided to her directly by Campus Wellbeing and noted that seventeen of the eighteen dedicated space have ergonomic arrangements currently in place. There are currently 1500 students registered with a disability with the University, with a total University population of approximately 36,000 students. The Chair noted that there are approximately 15 - 20 bookable rooms available for all students to access.

The Board was advised of the previous arrangements that had been in place in the old library (which is now known as the MUSE space). Noting that there had been a dedicated space in the old library in 2011 for disabled students and in the new library there was a dedicated space but this space was reallocated in 2014. The current arrangements regarding access to rooms within the library was discussed, noting that there are currently rooms that can be accessed by disabled (and all) students.

Another Board member spoke of his experience in having discussions with JoAnne Sparks and Deidre Anderson regarding the standards of the available rooms in the library not meeting expectations and noted that the results of these discussions were inadequate.

The Board discussed the consumption of food within the library and the Chair noted her advice that food can be consumed in certain areas or with permission. Bradley Lewer suggested that disabled students should be exempt from all rules limiting the consumption of food in the library.

Kristofer Gilmour arrived at 6:27pm at which time a quorum was reached.
The Board were supportive of an overall increase in the services available to disabled students and the repair of equipment, however noted that claims that the University had breached Anti-Discrimination legislation were significant.

The Board discussed the recommendation within the submitted discussion paper; that there be a guarantee that disabled students at Macquarie University would not be discriminated, subjected to any detriment, or denied access to any good or service. The Board noted that they agreed in principle but did not support the current wording of the recommendation.

The Board proposed and considered two separate resolutions in the alternative:

1. That Macquarie University increases funding to the Disability Unit for the purpose of improving services for disability students made in consultation with students with a disability and the SAB disability representative.

   The Board unanimously agreed with the proposed resolution.

2. That Macquarie University re-establishes a common room for the disabled student community, equivalent to other community specific rooms on campus, for example Queer Space, Women’s Room and the Indigenous students space.

   The Board unanimously agreed with the proposed resolution.

2.2 DEMOCRACY PROPOSAL

Bradley Lewer spoke to his submitted paper around his proposal relating to increased democracy, decision making and accountability of the Student Advisory Board (SAB). The Chair noted her concerns that the submitted discussion paper related to matters extending beyond the scope of the Student Advisory Board according to the current SAB Constitution and Charter. The Chair further noted that as part of the process for the development of the current SAB Charter, Constitution and Procedures, approved by University Council on 9 April 2015; that the Charter Review sub-committee of the SAB had been consulted.

One Board member noted that they were not entirely satisfied with the final SAB Constitution and Charter documentation.

The Chair highlighted that the Charter will be reviewed in twelve months’ time and that feedback highlighting any issues with the current suite of SAB documentation can be provided.

Bradley Lewer noted his preference in the event that this was to occur, that any disestablishment of the Student Advisory Board should occur democratically and questioned why University Council has this authority.

The Board discussed the proposal and the comments of Bradley Lewer and noted that there is a requirement that a student body (in some form) exists within the University
and therefore concerns around the authority of the University Council to disestablish the current SAB were minimal.

The Board engaged in robust discussions around the role of and current SAB model.

Bradley Lewer requested consideration of his proposed recommendation to elevate the Student Advisory Board powers to a Student Council and promote democracy, student decision making and to act as an independent body to serve the University.

Bradley Lewer’s proposal was not seconded by the members of the Board.

RESOLVED:
That discussions and dialogue are facilitated with the University in relation to the appropriate structure and model of SAB that may work more effectively.

2.3 ILLUMINATE FESTIVAL

James Burman who works within the Office of The Deputy Vice-Chancellor (Corporate Engagement & Advancement) spoke and presented to the Board about the proposed “Illuminate Festival”, noting that the final name of this festival would be changing. Background around the conceptual development and the purpose of the weeklong festival to be held in October 2015 was explained to the Board. The objective of the festival was stated as being to increase Macquarie University’s point of distinction and events are planned on campus and at offsite locations.

The Board were supportive of the concept and the content presented and suggestions were welcomed around the naming of the event. It was suggested that students currently studying Marketing and other interested students should be encouraged to participate in the staging of events.

The Board suggested including a focus during the event on the achievement of student groups, for example international charity work.

The Board were encouraged to provide their feedback and further consultation between the Board and James was encouraged.
