

# Bachelor of Environment

## ENVIRONMENTAL BIOLOGY

Below is a suggested enrolment guide for students commencing first year in 2020.

Unit Code – Session 1
<b>GEOS1110</b> The Habitable Planet
<b>ENVS1017</b> The Living Environment
<b>ENVS1000</b> Environment Skills
<b>BIOL1610</b> Biology in Practice

Unit Code – Session 2
<b>STAT1170</b> Introductory Statistics
<b>ENVS1018</b> Environmental Management for a Changing World
<b>BIOL1110</b> Genes to Organisms
<b>ENVS1XXX or GEOS1XXX or BIOL1XXX or unit of your choice</b>

This is not an exhaustive list and should be used as a guide only. You may have specific interests or career aspirations that will determine your choice of option sets or electives. The full list of options sets and electives can be found in the 2020 handbook <http://handbook.mq.edu.au>.

If you're taking a double degree with the listed single degree option and would like advice about which units you should take, please contact us directly.
