

# Bachelor of Medical Sciences

## ANALYTICAL BIOSCIENCES

Below is a suggested enrolment guide for students commencing first year in 2020.

### Unit Code – Session 1

**CHEM1001** Foundations of Chemical and Biomolecular Sciences 1

**BIOL1210** Human Biology

**ANAT1001** Introduction to Anatomy

**BIOL1620** Foundation in Medical Sciences

### Unit Code – Session 2

**CHEM1002** Foundations of Chemical and Biomolecular Sciences 2

**BIOL1110** Genes to Organisms

**STAT1170** Introductory Statistics

**PHYS1210** Physics for Life Sciences; **or**  
**FOSE1025** Scientific Computing; **or other unit of your choice**

This is not an exhaustive list and should be used as a guide only. You may have specific interests or career aspirations that will determine your choice of option sets or electives. The full list of options sets and electives can be found in the 2020 handbook <http://handbook.mq.edu.au>.

If you're taking a double degree with the listed single degree option and would like advice about which units you should take, please contact us directly.
