

# Bachelor of Medical Sciences

## GENOMICS AND MEDICAL INFORMATICS

Below is a suggested enrolment guide for students commencing first year in 2020.

Unit Code – Session 1
<b>ANAT1001</b> Introduction to Anatomy
<b>BIOL1210</b> Human Biology
<b>BIOL1620</b> Foundation in Medical Sciences
<b>CHEM1001</b> Foundations of Chemical and Biomolecular Sciences 1

Unit Code – Session 2
<b>BIOL1110</b> Genes to Organisms
<b>STAT1170</b> Introductory Statistics
<b>FOSE1025</b> Scientific Computing
<b>Unit of your choice or selection for second major</b>

This is not an exhaustive list and should be used as a guide only. You may have specific interests or career aspirations that will determine your choice of option sets or electives. The full list of options sets and electives can be found in the 2020 handbook <http://handbook.mq.edu.au>.

If you're taking a double degree with the listed single degree option and would like advice about which units you should take, please contact us directly.
