

Bachelor of Science

ASTRONOMY AND ASTROPHYSICS

Below is a suggested enrolment guide for students commencing first year in 2020.

Unit Code – Session 1
PHYS1010 Modern Mechanics
MATH1010 Mathematical Modelling IA; or MATH1015 Mathematical Modelling IA (Advanced)
FOSE1015 Statistical Concepts for Science; or FOSE1025 Scientific Computing
ASTR1010 Introductory Astronomy: Our Place in the Universe; or COMP1000 Introduction to Computer Programming; or any 1000-level science or any unit of your choice
Unit Code – Session 2
PHYS1020 Electric and Magnetic Interactions
MATH1020 Mathematical Modelling IB; or MATH1025 Mathematical Modelling IB (Advanced)
FOSE1015 Statistical Concepts for Science; or FOSE1025 Scientific Computing
ASTR1020 Other Worlds: Planets and Planetary Systems; or COMP1000 Introduction to Computer Programming; or any 1000-level science or any unit of your choice

This is not an exhaustive list and should be used as a guide only. You may have specific interests or career aspirations that will determine your choice of option sets or electives. The full list of options sets and electives can be found in the 2020 handbook <http://handbook.mq.edu.au>.

If you're taking a double degree with the listed single degree option and would like advice about which units you should take, please contact us directly.
